

**Lever Handle Attachment**

for opening/closing doors with the forearm

- > Area of application: for opening/closing doors with the forearm, thereby contact infections can be reduced
- > Material: plastic
- > Colour: black
- > Installation: for screwing to lever handle aperture parts with diameter 18–25 mm

**Note**

A careful and proper assembly/disassembly of the lever handle attachment prevents damage to the surface of the lever handle aperture part.

The lever handle attachment is not suitable for emergency exit doors and panic doors in accordance with EN 179 and EN 1125, nor for fire resistant doors and smoke control doors in accordance with DIN 18 273 and EN 1634. If other country-specific standards and specifications exist, they must be observed.

**Supplied with**

1 lever handle attachment  
screws and sleeve nuts

	Cat. No.
Lever Handle Attachment	909.59.400

Packing: 1 piece

**Order reference**

In exceptional cases, aperture part and attachment are not compatible (design, dimensions of aperture part, ...), therefore we recommend a trial mounting.

2 attachments are required per door (for inside and outside).

DGH-B 2015, HDE-en, 06/15; Dimensional data not binding. We reserve the right to alter specifications without notice.
